Abstract—The abstract describes a summary of the paper. In some cases, the authors confuse the abstract with the introduction. In the abstract using of acronyms and abbreviations is undesirable.

I. INTRODUCTION (HEADING 1)

For publication in the section Full Paper, beginning with the Proceedings of FRUCT14, article must be at least 6 pages and no more than 12 pages. Abstracts for performances may be from 1 to 3 pages. Exceeding these volumes is only possible by prior agreement with the organizers of the conference.

In \TeX for program listing is using command `\ttfamily`.

If you would like to make a cite, place it at the end of sentence before point or comma.

A. Information about authors

Please place last name after first name, declare them completely. If all the authors work in one place, their names are written with a comma (after last's no comma) in a single column. So a number of columns are equal to number of authors working in different places. Following declare author's place of work (at new line, no comma in the end). Place of work it's only general name of company or university, without name of particular department. On the new line place city and country by comma, and on the last line – email (without word "Email", don't use hyperlinks). The sequence of authors – at your discretion. The order of publication in Proceedings is defined by the first author. You can see different ways to design information about authors at Fig. ??.

II. CONCLUSION

This part presents the key findings in substance. Avoid simple enumeration of the following material. It is desirable to provide a link to existing articles and grants.

ACKNOWLEDGMENT

This section is not numbered. You may wish to express gratitude here.
